

HM7

Supercardioid Condenser
Headset Microphone

General Product Description

The HM7 is an ideal hands-free microphone for singers, entertainers, back-up musicians and lecturers. Intended for use with wireless transmitters or wired phantom power, the HM7 offers brilliant sound quality with supercardioid response. An adjustable behind-the-head band secures the microphone while allowing complete freedom of movement. The HM7 also offers complete comfort and a contoured behind-the-head headband and flexible boom arm in an attractive nonreflective black matte finish. Precise placement can be obtained with the 4 mm diameter flexible gooseneck*.

* For best results, place the microphone with windscreen just touching the lips.
