

4" COMPACT PASSIVE

CEILING SPEAKER

COMPACT AND DISCRETE

This Lithe Audio low-profile ceiling speaker provides a solution for installers who are looking for slim speakers to fit where space is an issue – without compromising on sound quality. Hitting a sweet spot between depth and quality is a challenge when designing ceiling speakers.

At 67mm deep, this IP44-rated passive low-profile speaker is ideal for wherever a ceiling cavity may be slim – such as bathrooms, garden rooms, dropped ceilings, pitched roofs – and delivers excellent sound quality.

LITHEAUDIO
