

T4

4" IP65 SPEAKER, BLACK (PAIR) [100V|16Ω]

 100V / 16Ω Input

 Easy Install

 Weatherproof

 Bracket Included

 Ver./Hor. Installation

 Available in Black or White

The T4 two-way IP65 loudspeakers with built-in 100V transformer and 16Ω power tap are perfect for both distributed and near-field applications in environments such as retail stores, restaurants, bar terraces, churches, malls or conferences. The speakers are housed in a stylish weatherproof plastic cabinet (IP65 - using the back cover) providing an excellent architectural integration, both indoor and outdoor. The very accurate speaker's coverage allows the people, among the audience, to perceive the sound in the same way. The low frequencies are reproduced by a 4" direct-radiating woofer with a polypropylene cone, while the high-frequency section is based on a titanium tweeter. A U-bracket is included and will support your installation on the wall or ceiling.

Product Type

2-Way Outdoor Passive Speaker
(16Ω/100V)
